

My name is Sonya Liminata, I'm ethnically Chinese but I was born and raised in Indonesia. Studying abroad has always been my dream ever since I was little, so coming to Doshisha after high school was such an amazing opportunity.

Kyoto is one of the best places that I've been to. It is the best mixture of traditional and modern culture. Everyday there's always something to see and places to explore. The food is absolutely delicious and the people are extremely friendly.

I'm in the Business and Economy concentration. Since the Institute of Liberal Arts (ILA) program allows us to learn and take classes from other concentrations, our overall learning experience is not limited to one concentration. I am currently learning Japanese as my third language, so I am very happy that Doshisha also provides us with Japanese language courses that we are able to take to help improve your abilities.

I really wanted to be the Student Ambassador because I want to share some of my experience with future prospective students who might be interested in joining "the ILA family."

How I think about the world has definitely changed since I came to the ILA. At the ILA, you will be able to meet people from around the world. I learned so much just by listening to their life stories and experiences.

Even though I have not really decided what I want for the future, all my new experiences have exposed me more to the world and really made me want to see more.
